		SIERACKI, J. M., "Greedy Adaptive Discrimination Signal Component Analysis by Simultaneous Matching Pursuits With Application to EcoG Signature Detection," University of Maryland Doctoral Dissertation, entered into University of Maryland Library cataloging system in approximately June 2003 but not shelved at that time. Dissertation was sent to bindery and was not shelved, and therefore was not available to the public, until a date no earlier than April 2004. In addition, although the Copyright deposit date was June 16, 2003, the Copyright Office reports that this dissertation was never catalogued by the Library of Congress and never shelved. Hence its earliest publication date is April, 2004 or later.
